

SOUTH BAYMOUTH SEWER SYSTEM

🚽 HELP PROTECT OUR SEWER SYSTEM 🚽

A Friendly Reminder to Residents: We've recently experienced some issues with sewage pump stations due to items being flushed that should not be in the system.

🚫 Please Do NOT Flush:

- "Flushable" wipes
- Feminine hygiene products
- Paper towels
- Any other non-toilet paper items

Even **products labeled *flushable* do not break down** properly and can clog pumps, leading to:

- Sewer backups
- Service disruptions
- Costly repairs

✅ Only Flush the 3 Ps:

- ✓ Pee
- ✓ Poop
- ✓ Toilet Paper

💡 Why It Matters

Our neighbourhood pump stations are smaller and cannot handle these materials. Your cooperation helps keep our system running smoothly and protects our community.
